This bibliography is generated from the master reading-list dataset behind The Mortal Court — every work cited on the justice-by-justice reading shelves and in the History of the Court reading room, in a consistent Chicago-style author–title format. Each work appears once. Alongside books it includes the significant articles, memoirs, correspondence, papers, dissertations and manuscript collections cited on the shelves. Court opinions, cited to the United States Reports on each justice’s page, are not listed here.
